

CUTICURA

Healed Pimples On Face and Body with a Cake of Soap and Box of Ointment

They developed into large blisters. Inflamed and red. Itching so severe scratched and irritated until became large eruptions. Could not work. Face so disfigured a sight. Sent for free sample. Purchased a cake of Soap and a box of Ointment and in three weeks was completely healed. From signed statement of Mrs. J. I. Morris, Westbrook, Texas.

If Cuticura did no more than soothe and heal eczema, rashes, itching and burnings, bringing speedy comfort to tortured, disfigured men, women and children, it would be entitled to the highest praise. But it does more. By using the Soap for toilet purposes, allowing no other soap to touch your skin, you will in many cases prevent these distressing experiences.

Sample Each Free by Mail. Address postcard: "Cuticura, Dept. H, Boston." Sold everywhere. Soap 25c. Ointment 25c and 50c.

DON'T FUSS WITH MUSTARD PLASTERS!

Mustard Works Easier, Quicker and Without the Blister

There's no sense in mixing a mess of mustard, four and water when you can easily relieve pain, soreness or stiffness with a little clean, white Mustersole.

Mustersole is made of pure oil of mustard and other helpful ingredients, combined in the form of the present white ointment. It takes the place of out-of-date mustard plaster, and will not blister.

Mustersole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten, soles of the feet (when covered with Mustersole).

30c and 60c jars; hospital size \$2.50.

MUSTERSOLE

WILL NOT BLISTER

DARKEN YOUR GRAY HAIR

Apply La Creole—It's Easy, Simple and Healthy.

No Dye.

You look old and played out with premature gray, streaked, faded or just turning gray again. Have beautiful dark hair again. Fluffy, soft and natural by applying La Creole to all your hair and scalp before going to bed. It is not dye but revives the color glands. Pretty soon you will be delighted to see all your gray hair turn to an even beautiful natural dark shade again. Not even a trace of gray will show after treatment with La Creole. This preparation also stops falling hair, dandruff and causes new soft hair to sprout all over your head. Don't be misled into buying some cheap hair tonic. La Creole is the only hair preparation that darkens gray hair by reviving color glands of nature. Try it. Sold on a money back guarantee by drug stores or sent direct for \$1.20 by Van Vleet Drug Co., Memphis, Tenn.—(Adv.)

THIRD LOAN TO BE THREE BILLION

Rate of 4 1-4 Per Cent. Interest to Be in Effect on New Liberty Bonds.

Washington, March 26.—The third liberty loan, to open April 6, will be for \$3,000,000,000 and all over-subscriptions at 4 1-4 per cent. interest.

Bonds of the first loan, bearing 3 1-2 per cent. interest, and of the second loan, at 4 per cent., may be converted into the new bonds, but those of the third loan will not be convertible into any future issue.

This announcement was made last night by Secretary McAdoo, with the comment that "the great events now happening in France must fire the soul of every American with a new ambition to furnish all the dollars and all the material resources in America that are needed to put an end to the execrable atrocities of German militarism."

In connection with the loan the secretary plans to establish a sinking fund with which to purchase back any bonds of the third loan thrown upon the market, in order to aid in keeping the price up to par. The maturity of the bonds is yet to be determined, but it was officially stated that they would be long term, probably between twenty and thirty years. Other features which will be settled as soon as congress passes the necessary authorizing legislation are the length of the campaign and the terms of the payments on the bonds.

Most financial observers were surprised at the comparatively small size of the loan and at the interest rate, both of which they had expected to be higher. Reduction of the government expenditure and allied below the former estimate is responsible for the loan's size, Secretary McAdoo explains. He said the bonds were made nonconvertible to put an end to the future, indicating his purpose to maintain the 4 1-4 rate for future loans.

Legislation will be drafted tomorrow by Chairman Kitchin, of the house, to provide for an additional bond authorization of \$4,500,000,000 more than the \$3,655,000,000 sum already authorized but unissued for the increased interest rate for continuation of loans to the allies this summer, and for issuance of more than the \$4,000,000,000 certificates of indebtedness now authorized. An effort will be made to rush this legislation through both houses this week, so that final plans may be made for the third liberty loan and the engraving for the bond faces by the first of next week. No opposition to the legislation is looked for by either house.

McAdoo Issues Statement.

In announcing the loan, Secretary McAdoo made the following statement: "The secretary of the treasury, in a conference with Mr. Kitchin, chairman of the house committee, yesterday outlined his plan for the third liberty loan. Actual expenditures of the United States government and of the allied governments having been much less than had been indicated by the estimates, the amount of the next loan will be only \$3,000,000,000, the right being reserved to allow over-subscriptions.

"The secretary will ask authority from congress to issue bonds bearing interest at the rate of 4 1-4 per cent. per annum, acceptable at par and accrued interest in payment of the United States inheritance taxes, and having the benefit of a sinking fund of 5 per cent. per annum during the period of the war and for one year thereafter.

"It is the belief of the secretary that the rate now proposed is sufficient and that by restriction of unnecessary capital issues and by inducing the people who subscribe for liberty bonds to save and to keep them for investment, and by purchases with the sinking fund from those who find themselves compelled to sell, future increases in the interest rate may be avoided. In order to put an end to the expectation of higher interest rates it is proposed that the conversion privilege shall be eliminated from the new bonds, but the holders of liberty bonds of all existing issues will be given an opportunity to convert their bonds into the new 4 1-4 per cent. bonds. In addition to the foregoing items of the proposed program congress will be asked for authority to issue bonds to the amount of \$4,500,000,000 in addition to those already authorized in order to provide for future issues; for authority to issue additional treasury certificates of indebtedness; for authority to make additional loans to the allied governments during the summer and for authority to deposit income and excess profits taxes with national banks, state banks and trust companies throughout the United States in the same manner as the law provides.

"I am sure the people will respond to the third liberty loan with the same enthusiasm as characterized their support of the first loans. The great events now happening in France must fire the soul of every American with a new determination to furnish the country with all the money and material resources that are needed to put down the execrable atrocities of German militarism. Defeat faces the Kaiser. Let us hasten it by asserting America's might with increased vigor in concert with our gallant comrades."

ENEMY'S GAINS MADE ONLY AT COST OF FEARFUL TOLL

British Resistance to Mighty Blow West of Cambrai Apparently Stiffening, Checking Progress of Attack on Extreme North and in Center of Battle Line—Salient Driven in Bapaume Region May Prove Menace to Germans.

(Associated Press Review.)

British resistance to the mighty German blow west of Cambrai apparently is stiffening. The Germans, despite the new masses of reserves which are being hurled into the battle line continuously, are slowing up on some parts of the attacking front before the defense of Field Marshal Haig.

On the extreme north and in the center the German progress has been appreciably slower, while around Bapaume, on the old battlefield of the Somme and east and north of Noyon the enemy has made gains, but only at the cost of a fearful toll exacted by machine guns and artillery. The fighting on these sectors continues of the most severe character.

Southwest of Arras the British line has yielded only about three miles, at the greatest depth since Saturday. Immediately west of the Somme, south of Peronne, the Germans suffered severe losses in their advance of the river, and seemingly have not been able to advance as fast as they did before the river was reached.

In the Bapaume region the Germans have driven a long salient in toward the British line, and have widened it somewhat southward in the direction of Peronne. However, unless the salient is widened still more, it may prove a menace to the enemy, as the British line still is holding well to the north and the south.

On the low-lying ground between the Somme and the Oise, where the French have come to assist the British, the Germans have reached Vesle and the British line is holding. The French are falling back under orders, but resisting the oncoming enemy forces strongly. Around Chauny the Ger-

HOPE DEFERRED

Just like Whistle delayed maketh the heart sick.—(Adv.)

Harry Crawford's Injuries Not Serious as Feared

(Special to The News.)

Dayton, Tenn., March 26.—Harry E. Crawford, highway supervisor for Rhea county, continues to improve, and his injuries are proving not so serious as was feared. Mr. Crawford was preparing for a blast at the quarry where the rock for the road is being obtained when he was caught by a slide from overhead which fortunately was only of dirt, but Mr. Crawford was buried by about a ton.

PEANUTS OCCUPY TOO MUCH SHIPPING SPACE

New Methods of International Shipping Trade May Bring Lower Prices of Imports.

Washington, March 26.—More economical methods of international trade which in time perhaps will bring lower prices of imported articles are expected by shipping board officials to be a permanent result of the system of import restrictions which has been put into effect as a war measure to conserve 1,500,000 tons of shipping.

Curious duplications of shipments, consuming thousands of tons of valuable shipping space were found by the experts of the shipping board, the war trade board and the department of commerce in planning the new policy. Peanuts, which Americans already have regarded as exclusively their own product, have been imported in such quantities from Asia that the tonnage used would have kept a 5,000-ton vessel continuously busy hauling peanuts and nothing else.

A similar situation was found in the importation of cutlery and razors from Greece.

Tonnage tied up by bringing corn from Argentina to the coast of the United States, and then to the world's total crop, would suffice to transport about 2,000,000 bushels of wheat each year to the army abroad.

Dates from Turkey formerly were imported to the extent of \$3,000,000 worth, the American money received in payment probably being used to aid the central powers.

TRIAL OF MRS. MOONEY POSTPONED TWO WEEKS

San Francisco, March 26.—The second trial of Mrs. Rena Mooney, charged with murder in connection with the San Francisco earthquake, was postponed two weeks. The defense requested the postponement in order to petition the state supreme court for a writ of habeas corpus for the release of Mrs. Mooney, held on two other pending murder charges.

THIRTIETH DIVISION TO BE BROUGHT TO WAR STRENGTH

Greenville, S. C., March 26.—The Thirtieth division at Camp Sevier will be brought to war strength at once by the addition of from 4,000 to 5,000 drafted men to be sent to the camp from the west. The first contingent of 500 men from Southern Illinois arrived yesterday and another contingent is due soon, according to an official announcement today. The Thirtieth division was brought to full war strength several months ago by the addition of several thousand drafted men from North and South Carolina, but repeated drafts of skilled men reduced the divisions strength.

RED CROSS DRIVING FOR 5,000 TONS OF CLOTHING

New York, March 26.—The American Red Cross has started a campaign in this city to collect 5,000 tons of clothing for the des. To inhabitants of Belgium and Northern France. All the laundries and department stores have been enlisted in the drive, the former acting as subsidiary receiving agents and the latter supplying delivery wagons to collect the garments.

GREAT BOMBARDMENT CONTINUES AT SEVIER

Practice Firing Becomes More and More Like Real Action as the Days Go By.

Camp Sevier, Greenville, S. C., March 26.—Activities between Camp Sevier and the target range at Cleveland mills where the second battalion of the 114th field artillery is detailed for two weeks' practice in firing, become more and more like real action as the days go by. Dispatchers on motorcycles negotiate between the range and camp, early and late, bringing orders for various necessities of the soldiers on the range. Large trucks began their duties yesterday by transporting several hundred rounds of three-inch ammunition to the range. These trucks are armored in steel and are built for the most severe test of the war. Even the wheels are steel.

Trucks laden with other supplies were seen to leave the storehouses at the camp and move toward "No Man's Land" in the hills near Cleveland. Many shells went "over the top" yesterday, in the imaginary offensive, routing out machine gun emplacements, listening posts, scoring a great percentage of hits just where they were directed and keeping the imaginary force of Huns with their heads ducked. Quiet followed the storm of shells that were bursting from early morning until late in the afternoon. The enemy gave no response, but the eagle-eyes of our men on watch held any move that might be attempted well in hand.

Some signs of movement were noticed at a fairly early hour this morning and the great bombardment was continued. For fear that the quietness of the enemy might mean secret underground work on their part, patrols were sent out in the vicinity of the enemy's lines before dawn, only to find that the greatest trenches were vacant and almost wholly destroyed. Whether Sergeant Richard E. Bolling, in command of the patrol, was captured or fell into one of the deep shell-holes has not yet been determined. At that rate, Corporal C. H. Burns, who returned with the patrol had not seen the sergeant since cutting their way through the enemy's barbed wire entanglement where the patrol was left in command of the corporal while Bolling started alone toward the first-line trench. Two machine guns were captured by this patrol.

Moley Has Two Star Recruits to Solve Infield

Birmingham, Ala., March 26.—Carlton Molesworth, after glancing at two of his rookies, is not worrying about his infield. For in Adam Debus, who was sent to the Barons by Pittsburgh, he is confident that he has a star shortstop. Bernsen, first baseman drafted from the Texas league, has shown splendidly thus far, and Moley believes he will not miss Doc Johnston, who has been traded to the American association.

With the infield problem settled, Molesworth is worried about the pitching staff and the outfield. Carl Slapnicka are about the only two twirlers upon whom the Birmingham leader is banking. Pittsburgh has promised to send two pitchers by the end of the present week. The Barons will select the other from the young candidates. For the road is being left to report. With that opinion on his mind, he decided to trade Art Bues, third baseman, to another league. Therefore, Moley is seeking another third sacker.

The Bears will get down to hard work during the latter part of the week. By hitting a fast pace, Flaherty believes his men will be in first class shape for the opening game.

GOV. DORSEY OFFERS REWARD FOR LYNCHERS

Five Hundred Dollars for Arrest and Conviction of Mob Which Hung Spencer Evans.

Atlanta, Ga., March 26.—A reward of \$500 has been offered by Gov. Dorsey for the arrest and conviction of any member of the mob that removed Spencer Evans, a negro, from the Tallapoosa county jail last Friday night and lynched him near Crawfordville, the county seat.

The governor also asked the attorney general for a ruling as to his authority to call W. J. Sturdivant, the sheriff of Tallapoosa county to account for the lynching.

The negro was sentenced to be hanged last Friday on a charge of criminal assault, but Gov. Dorsey granted him a reprieve until Friday, April 26. Shortly after word of the reprieve reached Crawfordville, it was stated, the lynching occurred.

The sheriff Sturdivant was recently removed from the exemption board of Tallapoosa county by order of President Wilson, because, in the opinion of the authorities, the board discriminated against negroes in filling Tallapoosa county's quota of the first army draft.

MRS. STOKES RELEASED; CHARGED WITH ESPIONAGE

Kansas City, Mo., March 26.—Mrs. Rose Pastor Stokes, New York socialist, arraigned here before a United States commissioner, charged with violating the espionage act, was released on bond of \$10,000 furnished by surety company on application of her husband, J. M. Stokes, who came here to arrange for his wife's defense. Mrs. Stokes waived preliminary examination and was ordered held to await the action of the federal grand jury which will meet April 22.

Charges against Mrs. Stokes are based on alleged statements delivered in Kansas City and nearby towns and upon a signed communication sent to a newspaper in which she declared that "No government that is for the profiteers can be for the people, and I am for the people."

A Stubborn Cough Loosens Right Up

This home-made remedy is a wonder for quick results. Easily and cheaply made.

The prompt and positive action of this simple, inexpensive home-made remedy in quick relief of inflamed or swollen membranes of the throat, chest or bronchial tubes and breaking up tight coughs, has caused it to be used in more homes than any other cough remedy. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, whooping cough, bronchial asthma or winter cough.

To make this splendid cough syrup, pour 2 1/2 ounces of Pinex (60 cents worth), into a pint bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. You then have a full pint—a family supply—of a much better cough syrup than you could buy ready-made for \$2.50. Keeps perfectly and children love its pleasant taste.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is known the world over for its promptness, ease and certainty in overcoming stubborn coughs and chest colds.

To avoid disappointment ask your druggist for "2 1/2 ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.
